Introduction

Thank you for purchasing this LED TV/DVD.

Please take time to read these instructions and retain for future reference.

Throughout the remainder of this user guide the LED TV/DVD will be referred to as the 'TV'.

Safety is important

To ensure your safety and the safety of others, please read the Safety precautions **before** you operate this product.

Keep this information in a safe place for future reference.

In the box

You will find the following:

- LED television
- User guide
- Quick start guide
- Remote control
- 2 × AAA batteries
- Power adapter
- Power cord
- Automotive Power socket adapter

Safety information

Important safety instructions - read carefully before use

Take note of the following safety information which appears on the back of this TV.

Caution! Risk of electric shock do not open. To reduce the risk of electric shock do not remove this cover. No user-removable parts inside. Refer servicing to qualified personnel.

This symbol indicates that there are important operating and maintenance instructions in the literature accompanying this TV.

This symbol indicates that dangerous voltage constituting a risk of electric shock is present within this TV.

WARNING

- Do not use this TV near water.
- Do not install or operate near any heat sources such as radiators, stoves, or other apparatus that produce heat.
- Clean only with a slightly damp cloth.
- Do not block any ventilation openings.
- Install in accordance with the supplied Quick start guide and this User guide.
- Protect the power cord from being walked on or pinched, particularly at plugs, and the point where it exits from the TV.
- Do not allow the power cord to overhang the edge of a table.
- Unplug this TV during lightning storms or when unused for long periods of time.
- To avoid interference, switch this TV off while operating other radio devices in the immediate vicinity.
- Refer all servicing to qualified service personnel. Servicing is required when the TV has been damaged in any way.

Warning! To reduce the risk of fire or electrical shock, do not expose this TV to rain or moisture. The TV must not be exposed to dripping and splashing and no objects filled with liquids such as a vase of flowers should be placed on the TV.

• No naked flame sources such as candles should be placed on the TV.

Caution! Changes or modifications not expressly approved by the manufacturer could void the user's warranty.

Caution! Usage of controls or adjustments or performance of procedures other than those specified herein may result in hazardous exposure.

Electrical information

Note

For use only when vehicle is Stationary.

Mains supply

The mains operating voltage is detailed on the rating plate on the rear of the TV.

The power cord on this equipment is supplied with a moulded plug incorporating a fuse. Should the fuse need to be replaced, an ASTA or BSI approved BS1362 fuse must be used of the same rating. Never use the plug with the fuse cover removed. If a replacement fuse cover is required, ensure it is of the same colour as that visible on the pin face of the plug. If there is no alternative to cutting off the mains plug, dispose of it immediately, having first removed the fuse, to avoid a possible shock hazard by inadvertent connection to the mains supply.

Connecting the TV

Connecting the aerial

Warning! Make sure the TV and all ancillary equipment are unplugged from the mains before making any connections

Place the TV on a stable flat surface, which is out of direct sunlight and away from any heat sources. In order to prevent TV picture distortion, make sure you avoid close proximity to other electrical devices such as microwave ovens.

Connect the aerial cable to the Back(RF in) of the TV. Connect satellite cable to the SAT socket on the rear of the TV. To connect it directly through a recording device (DVD recorder),connect the TV/DVD as shown below. For best results use a high gain TV aerial, preferably roof or loft mounted.

• If in a poor signal area, to improve picture quality, purchase and install a signal amplifier (not supplied).

Connecting external devices

The Quick Start guide shows the simplest and most effective way of connecting to external devices. These and alternate methods are listed below.

HDMI lead

You can connect this TV to a compatible device using a HDMI lead. This method will give the best picture.

Connect the cable from the HDMI equipment to one of the TV HDMI sockets.

Remote control

Remote control

Installing the batteries

- I. The battery compartment cover is on the back of the remote control. Slide the cover to open it.
- 2. Install the two AAA size batteries following the polarity markings inside the compartment.
- 3. Replace the battery compartment cover.

Using the remote control

To use the remote control point it at the TV and press the required buttons. You must be within 6 metres and at an angle of less than 30 degrees from the centre of the TV.

Note: Sunshine or other strong light sources may interfere with the signal from the remote control. In this situation, turn the TV set away from the light source.

Warning! Do not leave batteries in the remote control for extended periods as they can leak or corrode causing damage to the remote control. Check them periodically and replace them as required.

Warning! Do not mix battery types. When inserting batteries, replace all batteries at the same time. Do not mix old and new batteries.

Warning! Exhausted batteries must be treated with care and disposed of according to any safety or recycling regulations in force in your local area. Never dispose of batteries into general waste, or fire.

Switching on

- **Note:** Unless otherwise stated, all references to buttons refer to the remote control.
- 1. Press the **Power** switch on the rear of the TV. The standby indicator on the front of the TV will glow red.
- 2. Press the **Standby** button on the remote control. The standby indicator will change to blue.

Switching off

To switch the TV to standby press the **Standby** button on the remote control. The standby indicator will change to red.

To save energy do not leave the TV in standby mode for long periods such as overnight. Switch the TV off using the **Power** switch on the rear of the TV.

Tuning in digital TV

When the TV is switched On for the first time, the following screen will appear, press the $\land \lor \land \lor$ buttons to select your On Screen Display (OSD) language. Select Auto Search and press the OK button.

Note: You will not be able to select the country mode.

When this screen appears press the♥or ▲ buttons to select item, press ◀ or ▶ buttons to select country or channel. Press the OK button to confirm the selection. The auto tune will start and must not be interrupted once started.

When this screen appears, wait for the TV to tune your digital channels. This may take a few minutes

14%	UHF	СН	28	(DT\
		•	D (
עוט		6	Programme(s	5)
Radio			Programme(s	s)

Once the auto search is completed, the TV will display the target region setting. If more than one regional transmitter is available use ◀► to select your primary region preference, then press OK, to leave this menu press EXIT.

Once the target region setting or Auto search is completed, the TV will display the first available digital channel. All other available digital channels will be displayed in the Channel List by pressing the **CHANNEL** button. For more information, please refer to other sections of the User guide.

80 BBC NEWS	DTV
105 BBC Red Butt	DTV
▲ ▼ PAGE+ PAGE- OK EXIT	

To retune the TV at any time, press and hold down the Auto tune button(AQT). Select the country you require and press OK. The auto tune will start.

Tuning in satellite TV

For your convenience your 188/218/248DRS comes with a default channel list from first switch on, you are able to edit and sort this list to your own personal preference. If any further channels are required then you must start a full scan.

To perform a full scan

Press TV SETUP and select "Channel", press OK or Select the wanted satellite(default is Astra 28.2) Confirm there is signal in the indicator Scroll down and select "Search Transponder", press OK This will then start a complete scan of the selected satellite

		Channel	
	Satellite	ASTRA 2 28.2E	
	Transponder	10714 H 22000	
	Channel	< ALL	
	Search	Transponder	
	Advanced Setup		
	Channel Edit		
*	Favourite List		
	OK EXIT SET		

A scan will locate all new services on the selected satellite and add after the default channel list.

Any new/wanted channels can now be edited/sorted to the users desired preferance, please refer to page 17 for channel edit feature.

Advanced Setup

By default your satellite TV will automatically scan all Free To Air or all Scramble channels on the satellite you have chosen in the Channel menu. There is however an opportunity to modify any of these auto settings in the Advanced Setup menu.

It is advised not to change any default setting unless advised by qualified personnel.

To enter Advanced Setup you will need to input password (default 0000).

To Add New Services/Channels

Due to broadcast changes and to future proof your Satellite TV it is possible to add additional transponders so you have the opportunity to add any new channels that may get added to the channel list.

To add a transponder follow the procedure below:

Access Advanced Setup menu, you will need to input password (default 0000)

Press the GREEN button to enter satellite and TP Manager Select the satellite you are tuned to (default Astra 28.2), and press the button enter TP list.

01 028.2E Ku_ASTRA 2 28.2E	001 10714MHz H 22000KHz

Frequently Asked Questions

For satellite setup

I) No channels found, signal and quality bars are zero?

Please check satellite dish/LNB setup, also all cables are in position correctly Confirm there is a clear line of sight to where the dish is pointing with no obstructions, i.e. trees, buildings etc. Ensure your location is within the footprint of the desired satellite transponder.

2)Full scan performed but limited or incorrect channels are received? Ensure the dish is aligned with selected satellite correctly, e.g.. Astra 28.2

3)Picture or sound is breaking up or dropping out whilst viewing?

Confirm signal quality, enter Channel Search menu and check strength and quality bars. A slight missalignment could cause a large reduction in signal strength.Also confirm cable quality for satellite reception and cable length. A long cable run could incur significant signal loss (this can be copensated with a signal amplifier/booster). Ensure dish is correct size to receive wanted signal.

4)Loss of signal in light rain or snow Usually due to signal strength, please confirm all items above

5)Loss of signal in windy conditions Confirm all dish and mountings are secure and are not moving in the wind. Check there are no obstacles such as trees moving back and forth in front of dish.

6)Subtitles or audio language are incorrect Confirm preferred settings in language settings

7) How do I add additional channels not in original line up?

You will need to add additional transponder, please follow detailed instruction in the manual.

Basic operation

Source selection

Press the **Source** button to display the source menu. The following sources are available:

Use the \blacktriangle v buttons to scroll between inputs and press OK to select the source.

If no source is manually selected using the **OK** button, the TV will automatically switch to the highlighted input after 15 seconds.

Press the **Exit** button to exit the display.

The following sources can also be selected by pressing the individual buttons on the remote control. The following are available:

- Digital TV
- Satellite TV
- DVD
- AV
- HDMI I
- HDMI 2
- USB

TV channel selection

Press the $CH \sim /CH \sim$ buttons or use the Numeric buttons on the remote control to select a channel you require.

Return

Press the \bigcirc button to swap between the channel you are watching and the previously selected channel i.e. If you were watching channel I and change to channel 3, press the \bigcirc button to return to channel I.

Press the \bigcirc button again to return to channel 3.

Volume

Press the V+/V- buttons to increase or decrease the volume. The volume level will be displayed at the bottom of the screen.

Mute

Press the \bowtie button to mute the sound. Mute will appear at the top right hand side of the svreen.

Press the \bowtie button again or the V+ button to restore the sound. Mute will disappear from the screen.

Favourite

You can enter the Favourite menu while watching a channel by pressing the **Fav** button. The following menu will appear on the screen:

To add a channel to the Favourite List, press the **TV SETUP** button and scroll down to the Channel Setup. Press the ► button to access the menu. Press the ▼ button to select Channel Edit then press **OK**.

In the Channel Edit menu is a list of all available channels. Select the channel that you want to add to the Favourite List. Press the **Fav** button to add the selected channel. A heart will appear next to the selected channel. Press the **Exit** button to exit the menu.

Subtitle

If a channel has subtitles available, you can select the subtitles by pressing the **Subt** button. Select the required language using the \blacktriangle buttons then press OK.

Subtitle Language					
≎ Off					
English					
ЕХІТ ОК 🔺 🔻					

Information

You can view the programme information for the channel you are watching by pressing the **Info** button. The following menu is a typical example of the programme details that will be displayed.

Use the \blacktriangle **PAGE+ PAGE-** buttons to navigate through the available channels and programmes.

Press the \checkmark + 12H - 12H scroll information about programmes for the next seven days.

Press the **OK** button to watch the currently selected programme (only the first programme on each channel can be selected to watch as the other programmes have not yet started).

Press the Guide or Exit button to exit the EPG.

You can view information about any programme by pressing the **Info** button.

You can also set timer recordings from the **EPG**, select the desired programmes and press **REC**.

After finished setup, press **OK** to confirm.

Recorder schedule list will display as below You can delete schedule here.

Schedule List 23:31 16th Dec DELETE Time Date Programme Title Channel Name

Press the **Guide** or **Exit** buttons to exit the EPG.

Analogue Teletext (AV mode only)

Teletext is an information system that displays text on the TV screen. Using the teletext control buttons you can view the pages of information that are listed in the teletext index.

Note: No on screen menus can be displayed in text mode. The colour, contrast and brightness cannot be changed but the volume can still be adjusted.

Press the **Text** button to enter text mode. The text page, normally the index page, will be displayed.

Press the **Text** button again to exit text mode. The screen will return to video you were viewing.

Mix

Press the $\ensuremath{\text{Mix}}$ button to enter mix mode. The text page will display with the picture behind it.

Cancel

Press the **Cancel** button to view the programme you are watching without any text in the background.

Selecting a page

- To select a page in text mode, find the page number you require on the Index page and enter the page number using the Numeric buttons. The number will appear in the top left hand corner of the screen. A page search will begin.
 Once the page is found, it will be displayed.
- 2. To return to the Index page, press the **Index** button.
- 3. To select a Subpage, press the **Subpage** button.

Subtitle

- To display subtitles while watching video , press the Text button and go to page 888. The picture will be displayed and provided with subtitles, these will appear at the bottom of the screen.
- 2. Press the **Text** button to exit text mode.

Reveal information

- Press the **Reveal** button to reveal concealed information (quiz answers etc.).
- 2. Press the **Reveal** button again to conceal the information.

Fast text

At the bottom of the teletext screen are subject headings in red, green, yellow and blue.

- I. Press the Coloured (Red, Green, Yellow and Blue) buttons on the remote control to access these pages.
- 2. Press the Index button to return to the Index page.

Page hold

When in text mode and you are viewing a text page with sub pages, these will automatically be displayed in order with a delay to allow you to read the page.

- 1. Press the **Hold** button to stop the next subpage being displayed. The hold symbol will appear in the top left hand corner of the screen.
- 2. Press the **Hold** button again to continue moving through the sub-pages.

Text enlargement

- Press the Size button to enlarge the text shown on the text mode screen. Once selected, half a page will be displayed at a time.
- 2. Press the Size button again to view second half of the page.
- 3. Press the **Size** button a third time to return to normal text mode.

Digital text

Freeview digital text is an information system that displays text on your TV screen.

Note: No on screen menus can be displayed in text mode. The colour, contrast and brightness cannot be altered but the volume can be changed.

Follow the on screen commands. The following menu is an example of the BBC digital text service.

- I. Press the **Text** button to select digital text.
- To select the page you require, press the ▲ ▼ buttons and press the OK button to select. Alternatively you can enter the page number using the Numeric buttons. Press the OK button to view the page.
- Press the ▲ ▼ ◀ ► buttons to navigate the digital text menus.
- 4. Use the **Red**, **Green**, **Yellow** and **Blue** buttons to access the subject shortcuts.
- 5. To exit digital text press the **Exit** or **Text** button.

Common Interface Slot

The Common Interface (CI) slot is designed to accept the Conditional Access Module (CAM) and Smart card in order to view the pay TV programmes and additional services. Contact your Pay per View TV provider to get more information about the modules and subscription.

Note: Conditional Access Modules and Smart cards are sold separately.

Warning! Switch off your TV before any modules are inserted in the CI slot.

The CI slot is located on the rear of your TV. Insert the CAM correctly into the CI slot, then add the Smart card to the CAM.

- I. Turn on the TV
- 2. If the CAM is detected the TV will display the following message on the screen:

Common Interface Module Inserted

Wait for a few moments until the card is activated.

- 3. Select the relevant digital channel
- 4. Detailed information on the Smart card in use is displayed.
- 5. Press the OK button to access the card menu. Refer to the module instruction manual for setting details.
- 6. When the module is removed, the following message will appear on the screen:

Common Interface Module Removed

HDMI/AV Setup

The menu setup of HDMI modes is similar to the TV mode setup, except that Channel Setup is not available.

If there is no signal input when the TV is in HDMI mode, the following screen will be displayed:

If a signal input is not detected within 5 minutes, the TV will go into Standby mode.

Audio in

Please select HDMI as source to use with audio in (e.g.music player).

After 5 minutes screen will time out, however the speaker will remain active.

Operating the TV.

Recording to a memory device.

To format your memory device and create a PVR file, press the setup key on the remote whilst in Digital TV mode. Scroll down through the menu using the VA keys to Digital TV.

Press \blacktriangleright key to access the menu options and using the \checkmark key select the PVR FILE SYSTEM and press OK .

Using the VA keys to navigate through the PVR FILE SYSTEM menu options, select CHECK THE PVR FILE SYSTEM and then FORMAT part or all of the USB/HDD.

I.PVR FILE SYSTEM MENU

$\overline{}$	Select Disk	C:	\triangleright
	Check PVR File System	Start	
	Format		
	Time Shift Size		
	Speed		
	Max record time	6 Hour	
	SETUP A	V	

Select Disk will select the destination disk for recording TV program.

- Check PVR File system.
- Format will format the disk.
- Max record time will limit the max record time.
- After recording, press **list** button to display files information. Pressing **info** button to display details.

Key to abbreviations:

PVR: Personal video recorder HDD: Hard disk drive DTV: Digital television SD: Standard definition HD: High definition Insert USB or HDD. Then enter SELECT DISK

If using a USB device, default disk name is DISK C: If using a HDD, and HDD has two or more partitions, the system allows you to select C:/D: disk and so on by pressing

Select **OK** to continue. Select **EXIT** to exit.

2. CHECK PVR File System

Allows you select USB disk or HDD size for recording.

Pressing **•** to change.

System will show max recording time for SD and HD signal.

You can't select definition for recordings. It's determined by the input signal . Select **OK** to continue. Select **EXIT** to exit.

Allows you to set size for recording. For example, if USB is 4GB. System allows you select I GB/2GB/3GB/all by pressing Select **OK** to continue. Select **EXIT** to exit.

3.FORMATTING

if you want to format disk, Please note all data will be lost.

select start to format, during formating, do not power off the TV, select EXIT to cancel.

Do not unplug USB device. Formatting, Please wait

Press **REC** button to start recording.

After recording, press **LIST** to view information on recordings.

Warning:

Please make sure your USB or hard disk has at least 500MB free space and then create PVR file system before you record Digital TV program.

Press the **Time Shift** button to enter Time shift recording mode.

Press the 🕨 button to enter time shift playback mode.

Press **u** button to exit.

In record, play and time shift mode, you can use ◀, ▶ and OK buttons to select function.

	\odot	0	Θ

Language/audio channel selection

You may select the audio channel of the preferred language in mono or stereo.

VCD,CD disc:

MONO Left MONO Right

NOTES

Language selection depends on the disc recording. When you play DVD-Video discs, if you press the language switch button, the current track may be played from the Very beginning.

Direct play

Direct play is a creative function that is very helpful for users playing DVD's. With direct play function, you can play DVD directly, skipping the legal Warning, advertisements, chapter selection and other things that come before the movies start.

When the disc is loaded and the legal warning ,advertisements,chapter selection message shows, just press **b** button to activate direct play function and start playback instantly.

NOTES

When you are playing a VCD with PBC function, direct play can disable the PBC and VCD titles/chapters will be played in sequence.

ZOOM Function

- 1.When playing a disc, pressing the **ZOOM** button will open the zoom in/out function, and the TV screen displays(take X2 mode as an example):
- 2.Press the **ZOOM** button continually, all the magnified/minified modes display on the screen in turn. The magnified/minified modes includes: 2X,3X,4X,1/2,1/3,1/4.
- 3.When the mode is on 1/4,press **ZOOM** button to close the zoom in/out function, and the picture returns to normal size.
- 4. When the fame is magnified, press the cursor buttons to move the frame.

Fast playback

You may fast forward or reverse to search for a certain point during playback.

18.5 inch, 21.5 inch and 24 inch LED TV/DVD user guide

JPEG file playing

JPEG(Joint Photographic Experts Group) is the most widely used picture compression and storage format today. Utilizing a high efficiency compression algorithm, JPEG compresses the original picture 15 to 20 times with excellent picture quality. JPEG is featuring small size data, convenient application and supported by most picture processing software, so it is very fit to store photos.

Play JPEG file

After you put an JPEG format file into the unit, it will search disc information and display the operation menu as in the following figure. After selecting a JPEG file, the preview window will appear this file's preview image. After you select the JPEG file you desired and press [OK] button to confirm, the picture will display in full screen.

- Other basic operation methods
- I. Press [₩],[₩] button to turn to the next or last page.
- Other functions of JPEG file
- I. When playing JPEG file, press [ZOOM] button to enter zoom in/out, and press it again to stop this function.
- When in zoom in/out, pressing [→] button to magnify the picture and it will magnify the frame twice the original size. Pressing [<] button may minify the picture and it can minify the frame to half it's original size.

USB operation

Usage of USB device

USB refers to Universal Serial Bus. Most of USB devices on the market are USB2.0. Here are some common types of USB 2.0 devices: Monitors, Communication devices, Audio Human Input Device(HID), Mass storage drives etc. Most flash memory, USB HDD etc. belongs to Mass Storage Class. Mass Storage Class includes 2 transport manners:

- I. USB 2.0 Mass Storage Class Control/Bulk/Interrupt (CBI) Transport
- 2. USB 2.0 Mass Storage Class Bulk-Only Transport

This unit supports USB 2.0 Mass Storage Class Bulk-Only Transport.

When using USB 1.1 Mass Storage Class Bulk-Only Transport devices, please note that the file operation system only supports Windows FAT, it does not support FAT32 and NTFS file system.

- 3. Before you use the USB function, you should change the TV to USB source.
- 4. In USB main menu, you should select the media type, press **OK** to enter.

5. if the drive has multiple partitions, select DISC.

6. when see file list, you can select any file to preview or play.

7. In photo, music, movie and text play mode, you can use 🚽

▶ and OK key to operate file.

NOTES

- This player can play MPEG 2 and JPEG files in USB device.
- When reading MPEG files on the USB there may be a long pause.
- In movie playback mode if wanted image is too small press play button to fill whole screen.
- If there are no files in USB devices, on-screen appears "Empty Device". If USB devices have a problem, or the operation is incorrect, the screen displays "Device Error". Please check USB device, or else unplug them then insert them again.
- If a USB device unsupported the unit may 'lock-up' and become unresponsive to _{commands}. In this event please power down TV and remove USB and switch on the TV. device, and then switch the power back on to reset the machine.
- This unit does not support USB On The Go (OTG) technology, so any devices with OTG data exchange mode may not work correctly. Check this out before operation.
- Do not remove the USB whilst it is reading/playing.
- The symbol shown below means an invalid operation has been attempted.

TROUBLESHOOTING

To assist in locating possible faults use the help guide below.

Troubleshooting			
No picture, no sound	Check that TV is correctly plugged in.		
	Check the TV is connected to a suitable power source.		
	Check the electrical supply is turned on.		
No picture	Ensure that the TV is turned on.		
	Check that the cables are fitted securely.		
	Ensure the aerial and/or external sources are connected.		
	Press the Source button to change the source.		
No sound	Press Mute button and check if Mute mode is set.		
	Switch to another channel and see if the same problem occurs.		
	Press $f V+$ button to see if the problem can be solved.		
Poor sound	Check if correct sound system is selected (refer to page 16).		
No picture on some	Check correct channel is selected.		
channels	Adjust the aerial.		
No colour on some channels	Check if the same problem exists on other channels.		
(black and white)	Ensure the correct picture settings are selected (refer to page 15).		
Spots on some or all	Check that the aerial is correctly connected.		
channels	Check that the aerial is in good condition.		
Controls not working	Disconnect the TV from power supply, wait 10 seconds, reconnect the TV to the power supply.		
No response to remote	Remote control not aimed correctly.		
control.	Front panel remote control sensor obstructed.		
	Remote control batteries inserted incorrectly.		
	Remote control batteries exhausted.		

If none of the suggestions seem to work, try switching your TV off and then on again. Never attempt to repair the TV yourself.

Note: The TV must only be repaired by a qualified registered service person. Never attempt to remove the back cover as the TV has dangerous voltages inside that may cause fatality or fire.

Care and maintenance

Disposal

This symbol on the product or on its packaging indicates that this product may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more detailed information about recycling of this product, please contact your local council office, your household waste disposal service.

Guarantee

Your AVTEX television is covered by a 3 year parts and labour guarantee. This means that if the television develops a fault during the guarantee period we arrange a repair free of charge. Your original receipt acts as your guarantee so please make sure that you retain it throughout the guarantee period.

Please note that this guarantee does not cover you against faults caused by accidental damage or misuse.

This does not effect your statutory rights.
